Work Experience

PHP Developer
Idea Foundation – (July 2022 – Oct 2022)

Language & Framework: Core PHP, JQuery(Ajax), MySQL, MVC Architecture & Slim
Tools: XAMP, VS Code, FileZilla
Project: Oxole (Online Book Exchange)

- Developed and implemented core features such as user registration, book listing, search functionality, exchange requests, and user profile management.

Plugin PHP Developer
ThemeGrill – (Jan 2022 – Present)

Language & Frameworks: PHP, JQuery, JavaScript(ES6), React, WordPress(Plugins, Gutenberg Blocks, REST API
Tools: Local, VSCode & Jira, Microsoft Teams
Project: User Registration, Everest Forms , SmartSMTP, Registration form fields for WooCommerce & Customize MyAccount for WooCommerce

- Hot fixing, enhancing, and refactoring existing features, as well as developing new features.
- Additionally, I developed the SmartSMTP plugin from scratch using React and REST API.
- With my expertise in React, I also work on improving Gutenberg blocks in plugins.

Education

Sambhram Institute of Technology, Bengaluru
B. Tech in Computer Science & Engineering – (Aug 2016 – Dec 2020)

Project Work

- Oxole (Idea Foundation)
- User Registration, Everest Forms, SmartSMTP, Registration form fields for WooCommerce & Customize MyAccount for WooCommerce (ThemeGrill)
- Portfolio in NextJs
- Custom Code Snippets Plugin
- Many more small learning projects.
